

VÄLENCE

Parent Company Blue Skies Operating Corporation

KEY DIFFERENTIATORS

We are your one-stop custom fabrication and machining company:

- From prototype to final approved design, we work closely with your team throughout the entire process.
- Our engineering and design capabilities allow us to reverse engineer simple to complex projects.
- Short-run and mass-production projects, whether they are small or large-scale, are within our capabilities.
- Minor refurbishments to major rebuilds are also part of the services we can provide to you.

CORE COMPETENCIES

- We are a contract manufacturer able to fabricate and machine products to specs. We also have assembly, welding, and paint capabilities.
- We have a large bed 8kW laser plus several break presses that go up to 280 tons of force.
- We are capable of building large and small products to meet specifications.
- Our Engineered-to-Order Solutions include:
 - Advanced Material Handling
 - Safety Equipment
 - Generalized parts that may need to be made in small quantities
 - Advanced product parts that are not out of service

PAST PERFORMANCE

Example list of previous and current customers:

1. Toyota
2. Mazda/Toyota
3. Subaru
4. Crane pumps
5. LeROI (Ingersoll Rand)
6. USA National Cemeteries - TruRebel
7. Rockwell Aerospace
8. OTC Welders

- Federal: UEI: LRDGDMPANH26
- CAGE Code: 06N26
- NAICS:332311,332312,332322,332710,332439,812220PSC:3449,5411,7125, J034, J095, K034, K036, K037, K095, N034, N095, Z2KC, Z2KD
- 40 employees, 79K of factory space
- Accept credit cards

Example products and services:

Short Run and Production Machining Services

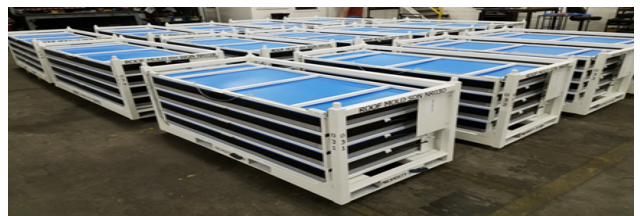

Pallets and Containers – Material Handling

Specialized Carts and Dollies - Material Handling

Tables, Racks, Stands, and Shelf Units
